DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2 and 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Muraro 6,543,563. Muraro shows a work vehicle provided with a tilt floor, wherein a hinge mechanism is provided on a front end of the tilt floor to enable to turn the tilt floor toward a front of a vehicle body, a rear of the tilt floor is formed to be higher than the front of the tilt floor so to cover a headroom of an engine disposed on a rear of the vehicle body, and an operator seat is disposed on a top surface at the rear of the tilt floor (figs. 2-3).

As concerns claim 2, Muraro shows the tilt floor is provided with a torsion bar 44 and a gas spring cylinder (unnumbered cylinder connected to 18) for assisting and controlling force for tilting the tilt floor.

As concerns claim 5-7, Muraro shows a canopy 9 is disposed behind the tilt floor, the rear of the tilt floor is attached to a counterweight (unnumbered weight adjacent to the right of element 45).

Allowable Subject Matter

3. Claims 3, 4, and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
